

Out of work and searching? Consider working in the tech field!

The Urban Tech Jobs Program (UTJP) is an accelerated technology training program that is exclusively designed for unemployed adults. The customizable program includes Job Readiness and Resiliency workshops, certificate or license bearing technology training classes, and paid work based training. As a result of graduating from the program, participants will be able to compete for jobs in a high demand and growing industry.

Why consider working in technology?

Corporations that hire for Science, Technology, Engineering, and Mathematics (STEM) jobs often have a difficult time finding qualified and skilled American workers. UTJP bridges that gap by collaborating with hiring companies to design and offer trainings for the jobs they need filled.

- STEM jobs have the highest earnings projections, highest job growth, and lowest unemployment rate over other industries. According to the Department of Commerce:
- STEM jobs earn 26% more than non-STEM jobs
- From 2008-2018, job openings in STEM are expected to increase by 17%

Eligibility

Must be unemployed, preference extended to those unemployed for 27 weeks or more.
Must have a diploma or equivalent Must be 18 years or older
